Technical Skills

- Languages: Java, C
 - Web Technologies: HTML, CSS, JavaScript
 - Core Concepts: Object-Oriented Programming (OOP), Exception Handling, Multithreading
 - Database: SQL, MySQL
 - Backend: JDBC, Servlet, JSP
 - Concepts: Collections Framework, Functional Programming (Streams, Lambda)
 - Tools: IntelliJ IDEA, VS Code, Git & Github
-

Projects

Banking System Application | Java · JDBC · MySQL | github.com/Tarun-82/banking-system

- Developed a Java console application with user authentication supporting login validation and session control using OOP principles
- Implemented debit, credit, and fund transfer operations with JDBC transaction management ensuring data consistency across operations
- Secured all database queries using PreparedStatement, preventing SQL injection across 10+ database interactions

Hospital Management System | Java · JDBC · MySQL | github.com/Tarun-82/hospital-management

- Designed a multi-entity management system handling patient registration, doctor profiles, and appointment records using normalized MySQL schema
- Implemented real-time appointment booking with doctor availability validation using parameterized SQL queries via JDBC
- Applied exception handling to manage database connection failures and invalid appointment conflicts gracefully

Hotel Reservation System | Java · JDBC · MySQL | github.com/Tarun-82/hotel-reservation

- Built a hotel reservation system supporting full CRUD operations — create, read, update, delete — for room bookings using JDBC
- Integrated MySQL database with a structured schema for managing room availability and guest records
- Secured all queries using PreparedStatement, eliminating SQL injection risks across all data operations

Myntra Clone | HTML · CSS | github.com/Tarun-82/myntra-clone

- Developed a pixel-perfect clone of Myntra's homepage using pure HTML5 and CSS3 without any frameworks
- Implemented responsive navigation bar, product cards, and banner sections using CSS Flexbox and Grid layout
- Applied CSS styling techniques including hover effects, transitions, and clean typography to match original UI

Education

Bachelor of Computer Applications (BCA) Inmantec (IAMT), CCSU University (Expected Graduation: 2027)

Senior Secondary (12th) [SDIC] [UP Board] – [2024] Percentage: 81.80%

Certifications

- Complete Java – KnowledgeGate
 - SQL (Intermediate) – HackerRank
 - HTML Completion Certificate- KnowledgeGate
 - CSS Completion Certificate- KnowledgeGate
 - JavaScript Completion Certificate- KnowledgeGate
 - TCS ION Career Edge-Young Professional
 - AI Tools And Chat GPT-Workshop
-

Achievements & Activities

- Hi-Tech Meritorious Student Award
- Participated in Technohack-2024
- Participated in Blind Coding Of INVENT
